DETAILED ACTION

Allowable Subject Matter

Claims 1-13 are allowed.

While the individual elements claimed are all known in the art, their particular arrangement is not disclosed by or obvious in view of the prior art. The following are the examiner's specific reasons for allowance:

As to claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious the "third angle reflector constituted by plane reflectors, and an angle line of the at least one end reflector is arranged perpendicular to an angle line of both of the first and second angle reflector," in combination with the rest of the limitations of the claim.

As to claim 10, the prior art of record, taken alone or in combination, fails to disclose or render obvious "guiding the optical beams reflected from the first and the second angle reflector through use of at least one end reflector, constituted by plane reflectors, by reflecting the optical beams off the at least one end reflector, and where an angle line of the at least one end reflector is perpendicular to an angle line of both of the first and the second angle reflector," in combination with the rest of the limitations of the claim.

As to claim 11, the prior art of record, taken alone or in combination, fails to disclose or render obvious the "angle line of the at least one end reflector is arranged

perpendicular to an angle line of both of the first and the second angle reflector," in combination with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
